Environmental Compliance Services

Protecting, Enhancing, and Restoring our Environment

Creating solutions and delivering results since 1976

CTI AND ASSOCIATES, INC. (CTI) is a multi-disciplinary engineering and construction firm specializing in Environmental Compliance and Remediation, Landfill and Geotechnical Engineering, Civil/Site Construction, and Construction Management Services. Our technical diversity, coupled with the keen ability to integrate planning, analysis, engineering design, construction, and operation services, allows us to provide project solutions that consistently meet and exceed the expectations of our clients.

HELPING OUR CLIENTS MEET FEDERAL AND STATE REGULATORY REQUIREMENTS

CTI has provided regulatory and environmental compliance services to industrial, commercial, Federal and municipal clients across the US since 1979. Our environmental compliance team consists of engineers and scientists, most having direct experience implementing compliance programs as the site owner, which means we have walked in your shoes. Environmental regulations are ever-changing and new regulations are being proposed on a regular basis, and it can be difficult to keep up with your regulatory responsibilities.

Representative Experience

Automotive Manufacturing

Ongoing environmental compliance support for Automotive, and other Tier I Suppliers for hazardous waste management, RCRA environmental procedure development, RCRA training, among others.

SWPPP/SPCC Development

Development, revision, and implementation assistance of site SWPPP and SPCC Plans to comply with 40 CFR 112 and stormwater permits. Conducted routine compliance inspections (SWPPP, SPCC, and PIPP)

Environmental Management

Site specific EMS audits for the USDA in MD and IA. Audits consisted of complete on-site review of environmental practices and procedures relating to the conformance with site EMS and review of the site EMS for consistency with ISO 14001.
